

MAKE Magazine: The Second Year: 4 Volume Collectors Set

In just two years, MAKE has rapidly become one of the hottest new magazines to hit the newsstands. Often coined the bible of the Tech DIY movement, the MAKE team has passionately pursued its stated goal: to unite, inspire, inform and entertain a growing community of imaginative and resourceful people who pursue amazing projects in their backyards, basements, garages and even modified kitchen counter labs - tech enthusiasts, backyard scientists, hobbyists, renegade crafters, hackers, students and backyard inventors and dreamers of all ages. Their vision: To spread the knowledge, skills and clever workarounds of innovative Makers across the DIY marketplace to aspiring makers, students of all ages and educators; To grow the Worlds largest Science Club around the Makers Brand; a constellation of communities that nurture, support and inspire scientific and technological exploration, learning and mentoring for people of all ages, ethnicities, gender and cultural background. To inspire and re-engage youth from all walks of life in the joys of science, engineering, technology and the arts. Through the brilliantly written and beautifully illustrated magazine, podcasts and makezine.com website, the MAKE team has won broad acclaim for their clear yet down-to-earth coverage and uncanny instinct for what moves Makers, and their ability to nail the curiosity, vibrance, and passion of the rapidly emerging tech DIY movement. In this special re-release, all 4 volumes of MAKEs second year are combined in this special 4-Volume Collectors Set.
