

## Hey Lu! In Lu the New

Hey Lu! is a rhyming childrens book series that encourages young girls into the field of science while building self-esteem in a fairytale setting. Welcome to the enchanted forest of Olathe, the home of an adventurous and inquisitive little troll girl named Luella Weatherbee. Join her, her pup and all the other characters in Olathe to discover the magic of science and the benefits of self-esteem! Lu will take you on an adventurous and imaginary tour from exploring atoms to the jungles of the Amazon. Beyond her magical realm, Lu understands the importance and fun of all things science. In the first volume: Being the new kid on the first day of school can be scary, especially to a troll girl known as Luella Weatherbee. She moved from the mountains with her grandparents to the enchanted forest of Olathe after the mountain was destroyed. Now Lu faces being the only troll girl amongst the fairy children of her school and being bullied due to her differences. Join Lu, her family and her new found pup on her mishap adventures of learning that standing out surpasses falling in.
