

Websters Compositions Dictionary

Compiled from a wide variety of sources, this dictionary gives one of the broadest ranges of glossary-type definitions specifically related to compositions. It is a superb resource for students, teachers, and professionals. Both concise and wide-ranging, this volume is an ideal reference work for researchers or for a home library. The dictionary contains a generous wealth of information, and is encyclopedic in scope and nature. Authoritative and reliable, it is a targeted reference containing clear, fully revised and alphabetically arranged entries that cover both bibliographic and non-bibliographic entries.
