

The Spelling-Book: Consisting of Words in Columns and Sentences for Oral and Written Exercises (Classic Reprint)

Excerpt from The Spelling-Book: Consisting of Words in Columns and Sentences for Oral and Written Exercises This work has been compiled to furnish teachers with complete and systematic series of exercises in English orthography. Experience has convinced the author that the old method of requiring children to study words in columns, arranged according to their accent and number of syllables, and to spell them orally, without reducing the exercise to practice by writing the words, is a useless task, and will never accomplish its design. Children may be able to spell words correctly when pronounced by the teacher; but, without frequent practice in writing, they will misspell them in composition. The recent reports of school committees upon this subject, bear testimony to the truth of this conclusion.
