

Navigator Road Map Wiltshire

A brand new sheet map featuring Philips exceptionally large-scale and detailed Navigator mapping and covering the whole of Wiltshire. The map is part of Philips new series of Navigator sheet maps, each covering a county, unitary authority, or group of authorities. The map gives highly detailed coverage at 1 mile to 1 inch of the regions road network, including minor country lanes and rural tracks - and even major footpaths - and every junction, roundabout and slip-road is shown in detail. There is much other detail, including thousands of individually named farms, houses and hamlets. Also shown are airports, airfields, stations, ferries, canals, marinas and an abundance of places of interest. The map has a comprehensive index and includes town plans of Salisbury and Swindon. The maps are designed for both professional and leisure users. For professionals, the wealth of detail makes activities such as regional planning and delivery driving far easier. Also, the maps are fully printed on one side (including the index) to allow hanging as a wall map. For leisure, the wealth of detail greatly eases the navigation of both main roads and byways, and increases the pleasure of touring by opening up new possibilities.
